

We specialise in trade fairs

Comprehensive event and exhibition services: stand design and construction for trade fairs, indoor, marquee and outdoor events, including organisation and additional services (technical support, furniture, marquee hire and other equipment). Full on-site support – before, during and after the event.

Customised solutions

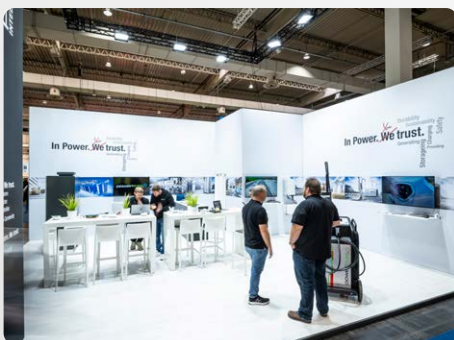

Stand designs that impress. Whether as a modular solution or a bespoke design – aesthetics and ergonomics are our top priorities. High-quality components and creative material combinations are the hallmarks of our designs.

System-based stand concepts

Our tried-and-tested system stands with variable fittings. Whether simple, elegant or particularly comfortable, as a ready-made stand or a bespoke solution — tailored to your budget and taste, you can utilise our system modules and standardised service packages.

Full-service stands at our DLG trade fairs

At our DLG trade fairs, we offer you a comprehensive, worry-free package with our wide range of full-service options. Whatever your taste or budget, we have the right stand construction option to make planning your trade fair presence easier.
